About Me

With a "let's go for it" philosophy, I have spent the past 7 years as a full stack developer working for startups. I enjoy working collaboratively but can also effectively coordinate a project from start to finish independently.

I realize the importance of the balance between initial design and implementation. I also recognize the importance of sales, marketing, and customer support in getting a business off the ground, so we can work together while respecting each other's work.

Experience

agito, Inc. /Tech Lead
OCT 2018 - PRESENT, TOKYO

- Led team of 3-5 programmers and diligently managed progress on top of reviewing performance
- Acted as representative of engineers and led communication to the business team
- Developed original ad data collecting applications from the ground up in collaboration with the company's CTO
- By helping work through product scalability issues, connected ad accounts grew from 3,000 to 20,000 (number of ad reports acquired: approx. 200,000/day)
- Migrated existing ad data collecting applications to serverless infrastructure
- Responsible for the operation of ad data collecting applications and developing new features
- Built a prototype program to determine the industry from the ad text
- Developed an application to create data mart to link ad data with customer data
- Developed an application to generate SQL for BI tools
- Developed an application to generate Excel reports
- Developed a web application as full-stack developer

Ubun Corporation / Freelance Engineer
FEB 2021 - APR 2022, TOKYO

- Developed an application targeted for Amazon sellers

- Responsible for front-end, back-end, and batch processing as a full stack developer

TVision/ Freelance Engineer

JUN 2018 - AUG 2018, TOKYO

- Created an internal web application
- Resourcefully and confidently managed time and projects independently

Techloco, Inc. / Engineer

OCT 2015 - JUL 2018, TOKYO

- Collaborated in developing an all-in-one marketing tool
- Proposed and developed an application that allows users to review, comment on website designs on their browsers

Soldout, Inc. / Marketing Division

APR 2014 - SEP 2015, TOKYO

- Developed Google Apps Scripts, using Salesforce API, and Hubspot API to improve business workflow

Education

Aoyama University / Bachelor of Business Administration, BBA

APR 2010 - MAR 2014, TOKYO

The University of Vermont / Concentration in Business

AUG 2012 - MAY 2013, BURLINGTON, VERMONT, USA

- 9 month long exchange program through International Partnership & Collaboration
